VANITHA P K

Full Stack Developer

vanithapkrishnamurthy@gmail.com | +91 7010617419

Bengaluru, India | linkedin.com/in/vanitha-pk-719096115

Full Stack Developer with experience building scalable products using Java, Spring Boot, React and PostgreSQL. Skilled in REST APIs, frontend development, workflow automation and performance optimization.

PROFESSIONAL EXPERIENCE

Senior Software Engineer

OpenText | Oct 2025 - Present

Experience Central | Digital Engineering

- Develop React microfrontend features and resolve production issues for a user engagement platform with real-time behavioral alerts.
- Build reusable React components from Figma designs and Java/Spring Boot REST APIs for frontend and analytics workflows.
- Improve application stability during framework upgrades and dependency migrations.
- Work with product, design and engineering teams on requirements, code reviews and releases.
- Built a Python and LLaMA weather-alert prototype during an internal AI hackathon.

Senior Applications Engineer

Oracle Tech Hub | Aug 2024 - Oct 2025

Oracle Permit and License Application (OPAL)

- Updated Java data models across 100+ tables, including View Objects and Entity Objects.
- Built VBCS applications and pages from Figma designs for public-sector workflows.
- Optimized Oracle JET code and wrote Mocha/Chai and Selenium tests.

Software Engineer

FIS Global | Feb 2022 - Jul 2024

T. Rowe Price | Workplace Retirement

- Built retirement applications using React, Redux, Java, Spring Boot and PostgreSQL.
- Developed REST APIs with Spring Data JPA, DTOs and centralized exception handling.
- Reduced API response time by 40% through Redis caching and JPA query optimization.
- Improved React performance; wrote JUnit/Mockito tests and implemented SLF4J logging.
- Deployed on AWS S3, Lambda and EC2; automated CI/CD with GitLab and Docker.

ORGANIZATIONS

OpenText
Oct 2025 - Present | Senior Software Engineer

Oracle Tech Hub
Aug 2024 - Oct 2025 | Senior Applications Engineer

FIS Global
Feb 2022 - Jul 2024 | Software Engineer

Infosys Limited
Aug 2019 - Feb 2022 | Senior System Engineer

Infosys Limited
Dec 2018 - Apr 2019 | Intern

TECHNICAL SKILLS

Backend
Java, Spring Boot, Spring REST, Spring Data JPA

Frontend
React, Redux, JavaScript, TypeScript, HTML, CSS

Data
PostgreSQL, MongoDB, Redis

Cloud and tools
AWS, Git, GitLab CI/CD, Docker, Jenkins

EDUCATION

B.E. Computer Science Engineering
Sri Ramakrishna Engineering College | Coimbatore | 2015 - 2019

VANITHA P K

Full Stack Developer

PROFESSIONAL EXPERIENCE CONTINUED

Senior System Engineer

Infosys Limited | Aug 2019 - Feb 2022

HSBC | Banking

- Built an international customer onboarding application for HSBC back-office teams.
- Automated onboarding workflows with Camunda and Spring REST APIs.
- Managed customer records and audit history with PostgreSQL and Spring Data JPA.
- Automated analytical reports and scheduled downloads with Java and Spring Boot.
- Built React pages for fraud reviews and account-opening approvals.
- Deployed Camunda workflows to AWS EC2 for testing; monitored logs with AWS CLI.
- Used Git, Jenkins, SonarQube, Jira and Confluence for Agile delivery.

Intern

Infosys Limited | Dec 2018 - Apr 2019

- Built a test-case generation framework with Node.js, Express.js, Mocha, Chai and MongoDB, with an Angular 7 results interface.
- The Infosys Training Team later adopted the framework for test evaluation.
